- Public Comments

Aviation Academy is Just around the corner

Academy Director Kevin Kelly is gearing up for the spring session of Aviation Academy. Paine Field and the Washington Pilots Association are, once again, the proud sponsors. The classes are for students, ages 13 through 18, who are interested in learning about aviation. The classes start April 23 and meet two times a week for four weeks at the Everett Community College Aviation School on Paine Field (plus a few Saturday sessions including an actual flight). The curriculum includes:

- History of Aviation
- Propellers and power
- Four Forces of Flight
- Air Traffic Control
- Weather
- Career Opportunities
- Navigation
- Cross County Flight Planning

The Academy is a wonderful value. It costs only \$50 for all of this instruction. Class size is limited and is on a first come basis. The application is available at www.wpa-paine.org/aviation_academy.htm or email avac@wpa-paine.org. You may also call the Airport Office 425-388-5125.

Washington Pilots Association Annual Meeting May 12

Future of Flight
There will be seminars
and an afternoon annual
business meeting followed up
by heavy hors d'oeuvres and
guest speaker Mike Melvill

As most of you know, Mike was the first civilian astronaut, flying SpaceShipOne into outer space. Shortly thereafter SpaceShipOne flew again winning the X Prize.

For more information go to:
www.wpaflys.org/presidents_message.html

Washington Pilots Association

Come and learn about Northwest weather from the expert!

Reserve Dinner NOW!
<http://www.wpa-paine.org>

Allen Kam
National Weather Service

The Seattle NWS Forecast Office focuses on short range weather forecasting (out to seven days) or western Washington

Mr. Kam, a private pilot at Paine Field, will show the NWS film "Washington Weather Hazards", plus talk about the "Northwest Convergence Zone";
