Bernie Webber Drive Grand Opening

A new public road on the West side of Paine Field was officially opened on October 16. The road is named for the late internationally known Everett artist, aviation enthusiast and Airport Commissioner Bernie Webber. Bernie served on the Airport commission for eight years, four of them as Chairman.

Many of Bernie Webber's family members attended the Ribbon Cutting ceremony for Bernie Webber Drive. Six of Bernie's ten children, Patsy, Barb, Richard, Greg, Chris and Katherine, were able to attend. County Executive Aaron Reardon assisted Bernie's wife Joy (above with big red scissors) with the actual cutting of the ribbon. The event was held in the soon-to-open Heritage Flight Foundation's air museum hangar. Unable to attend were the other four children; Elizabeth, Tom, John and Stephen.

Airport Rules and Regulations

The Airport has completed a "draft" of the Airport Rules and Regulations handbook and have posted it on the Airport's website for initial comments and feedback. This handbook was created to provide tenants and Airport users with a better understanding of the policies and procedures set by the Snohomish County Code, as it pertains to Airport use. These Rules and Regulations restate and elaborate on the County Code and the existing policies for leases, licenses, or deeds and will provide one central document that better identifies the operations and general usage of the Airport.

We encourage you to review the handbook at www.PaineField.com and provide any comments or feedback to airportrulesandregulations@snoco.org. We appreciate your feedback and will be reviewing all comments for possible additions/deletions to the "draft" version. The Airport is planning to move forward with adoption of this handbook so please send feedback and comments prior to November 30, 2009.
