

Monthly Noise and Operations Summary

**May
2019**

Noise Brief:

During May 2019, Paine Field received a total of 1,899 noise comments via the Airport’s noise reporting system related to Paine Field flight operations. These 1,899 comments were generated by 174 individual households in the surrounding communities. 4 households were responsible for **64%** of the noise comments.

During May 2019, the Paine Field Air Traffic Control Tower recorded 12,900 flight operations. This is a 0.33% decrease in operations from May 2018, which had 12,943 operations.

The four-year average number of flight operations for May is 11,234. Total operations for May 2019 are 14.82% above the four year average.

Complaints:

Many factors contribute to the number of complaints received each month and by how many people. Complaint totals are rarely consistent due to factors ranging from one unusual flight event that generates multiple complaints from a large group of people, to an overcast day which blocks and reflects sound, or even home owners who are new to the area.

Noise complaints are received via the Airport's web based noise complaint form or telephone hotline. Upon receipt, complaints are investigated and correlated to specific flight operations using a combination of radar tracks, the aircraft's automatic surveillance system and the FAA flight plan system. Since FAA flight operations data is not released until the third week of the following month, the monthly summary report is posted online by the first day of the following month.
